

RE: Reissuing of SA Tourism Tender SAT 137/18: BMP Tool for SA Tourism

Dear Bidder,

Please note that after careful consideration, SA Tourism has elected to defer the issue date of the above mentioned tender to a more realistic time. Due to most businesses winding down operations over the December period SA Tourism concluded that issuing the tender during January 2019 will result in more qualitative bid responses to this critical business requirement.

This will also mean that business who have already shut down, or are about to shut down operations, over the festive season will still have the opportunity to respond to SA Tourism's tender at a more convenient time.

By virtue of this notice, the tender issue date will now be moved from 23 November 2018 to 18 January 2019. The tender document will accordingly be removed from SA Tourism's website and the tender e-portal and will be reloaded by 9h00 on Friday, 18 January 2019.

SA Tourism apologises for the inconvenience this may have caused to any potential bidder where SA Tourism remains committed to issue this tender in a manner which is fair, transparent, competitive and cost effective.

SA Tourism will accordingly reissue the tender notice with the revised dates through the tender bulletin, the e-Portal as well as the South African Tourism website.
