

## ADMISSION OF GERMAN CITIZENS HOLDING GERMAN PASSPORTS WHO ARE EXEMPT FROM HAVING TO BE IN POSSESSION OF A VALID PORT OF ENTRY VISA

German citizens holding German passports are exempt from the South African visa requirement **for a period of ninety (90) days** and in respect of purposes for which a port of entry visa may be issued e.g. holiday, business meetings (see note below) and when in transit. A visitor's visa not exceeding a period of ninety (90) days may therefore be issued to a German citizen holding a German passport at a South African port of entry e.g. international airport, provided that he or she is able to submit the following documentation to the immigration officer:

- a machine readable passport valid for no less than thirty (30) days after the foreigner's intended departure from the Republic of South Africa, and having at least **two (2)** blank pages for endorsements;
- a statement or documentation detailing the purpose and duration of the visit;
- a valid return air flight ticket or proof of reservation thereof;
- proof of sufficient financial means, which shall be in the form of a recently issued bank certified statement, for the last three (3) months;
- a residential address of the intended place of stay within the Republic of South Africa and the business, residential or physical address of his or her host in the Republic; and
- a yellow fever vaccination certificate, if the foreigner travelled or intends travelling from or transiting through a yellow fever endemic area to the Republic of South Africa – **the certificate shall not be required where that person travelled or intends travelling in direct transit through such an area** (see [http://www.suedafrika.org/downloads/Yellow\\_fever.doc](http://www.suedafrika.org/downloads/Yellow_fever.doc)).

However, **unaccompanied** foreign children travelling to and from the Republic of South Africa are still required to provide supporting documents (see <http://www.dha.gov.za/index.php/statements-speeches/621-updated-advisory-new-requirements-for-children-travelling-through-south-african-ports-of-entry>).

- In terms of Immigration Regulation 11(5), a person, other than a resident from a country with which the Republic of South Africa shares a border (Lesotho, Swaziland, Namibia, Botswana, Zimbabwe and Mozambique), who is in possession of a visitor's visa issued on the basis of being exempt from South African visa control e.g. a German citizen for 90 days, shall upon his or her re-admission to the Republic, be admitted on the same visa, and where such visa has expired, may be admitted on a new visa valid for a period **not exceeding seven (7) days**: Provided that where that foreigner arrives at a port of entry **from his or her country of residence**, the new visa may be issued for a period not exceeding the period attached to the visa exemption e.g. 90 days for German citizens.
- The Immigration Act, as amended, makes provisions for an application for a once-off renewal / extension of a visitor's visa for a further period, which shall not exceed three months – such application must be submitted in person via a VFS office **in the Republic of South Africa** (see <http://www.vfsglobal.com/dha/southafrica>) no less than 60 days prior to the expiry of his or her visa and if the visa was issued for less than 30 days, not later than 7 working days before the expiry of the visa. Please note that a South African foreign mission e.g. the Embassy in Berlin, may not guarantee the renewal / extension of a visitor's visa, as such decisions are taken solely by the officials in the country. **The foreigner / applicant must however ensure that he or she has received the extended visa i.e. the visa has been placed in his or her passport before departing from the Republic, in order not to be declared as an undesirable person due to an overstay.**
