

A close-up photograph of a lion's face, focusing on its eyes and the texture of its fur. The lion's eyes are a golden-brown color and are looking slightly to the right. The fur is a mix of brown and tan, with some darker stripes visible on the right side of the face. A dark, semi-transparent rectangular box is overlaid on the left side of the image, containing the text 'AfricanSafariCollective' and 'You'll know the difference'.

As you gaze at the Drakensberg mountains it is strange to think the air was once filled with cordite, steel, and anger. Today it is peace, comfort, joy and a passion for sustainability. Whether it is adrenaline you are after or simply to relax and watch the birds, there is no better authentic journey.

You get to explore the magic and wonder of this globally significant ecological gem from a boat, a game vehicle and by foot, and are set to encounter the 120 mammals, 128 reptiles and 50 amphibians that roam free.
