### 5 DETAILED SCOPE OF WORK

#### 5.1 Scope of services

The purpose of this Request for Proposal (RFP) is to solicit proposals from potential bidder(s) for the provision of a turn-key travel management solution to South African Tourism.

It should specifically be noted that South African Tourism is looking at appointing a traditional Travel Management Company (TMC) who will need to manage all South African Tourism's corporate travel.

South African Tourism also uses hosting as a marketing, sales and educational tool, with the main aim being to promote South Africa as a leisure and business events destination, and is based on the premise that first-hand experience and/or exposure to the destination and the brand better equips the target audience to promote South Africa. To this extent, the TMC will not be able to also provide Destination Management Consultancy (DMC) services but will be required to procure those services based on pre-define itineraries developed by South African Tourism from independent DMC's in order to mitigate any possible conflict of interest should the TMC also provide DMC services.

South African Tourism have as guidance developed a proposed matrix of what the expected value chain and operational structure should more or less be based upon, this have been attached as **Appendix 1**.

This RFP document details and incorporates, as far as possible, the tasks and responsibilities of the potential bidder required by South African Tourism for the provision of travel management services to South African Tourism. This RFP does not constitute an offer to do business with South African Tourism, but merely serves as an invitation to bidder(s) to facilitate a requirements-based decision process.

When considering submitting a bid, bidder(s) should be cognisant of the legislation and/or standards specifically applicable to the services required under this RFP.

### 5.1.2 Preamble

South African Tourism currently makes use of Club Corporate Travel (Pty) Ltd to manage the travel requisition and travel expense processes within the travel management lifecycle. The travel requisition process is currently a semi-automated process. The travel requisition is manually captured on forms that go through a manual authorisation approval procedure and are then forwarded to South African Tourism's travel co-ordinator.

The travel co-ordinator captures the requisition into ORACLE (South African Tourism's Purchasing provisioning system) which goes through an approval workflow process and then through to the travel management company for travel booking.

South African Tourism's primary objective in issuing this RFP is to enter into agreement with successful bidder(s) who will achieve the following:

- a) Provide South African Tourism with travel management services that are consistent and reliable and will maintain a high level of traveller satisfaction in line with the service levels;
- b) Achieve significant cost savings for South African Tourism without any degradation in the services;
- c) Appropriately contain South African Tourism's risk and traveller risk.

Hosting is a marketing, sales and educational tool, with the main aim being to promote South Africa as a leisure and business events destination, and is based on the premise that first-hand experience and/or exposure to the destination and the brand better equips the target audience to promote South Africa.

Site Inspections are another form of hosting specific to the business events industry. It is utilised as a means to showcase the feasibility of the country to host a particular business event. Research shows a correlation between increasing familiarity with a destination and increased sales of the destination (Source: South African Tourism Brand Tracker).

The Brand Experience team at South African Tourism use carefully crafted itineraries/ programmes to showcase South Africa in a way that delivers on our brand promise. Brand Experience is central to how the target audiences experience South Africa as a tourism destination. All hostings are designed in line with the country or business unit marketing strategy and ensure that the experience delivered on the ground matches the marketing communication for that country (including the type and class of accommodation and activities).
