### RFQ - Replacement of Outdoor Light Bulbs, Install New Day-Night Sensors and Fix Wiring

Suppliers must allow re-wiring on their prices due to some lights not only needing replacement but frequently burn due to suspected faulty wires. This work will require a qualified electrician to comply with the latest edition of SANS 10142-1 wiring of premises - part 1: low-voltage installations (Edition 3: 2020) has recently been published.

All bulbs should be energy-efficient lightbulbs.

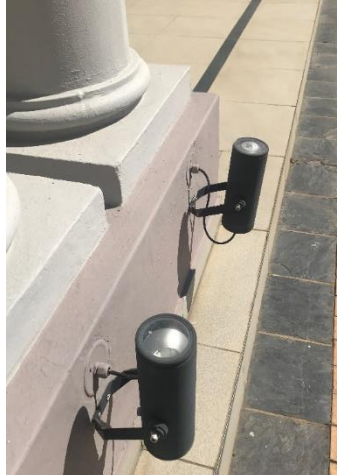

Some bulbs are at the height exceeding 4 meters.

	Item Description	Unit Measure	Quantity	Image	Price
1	Garden Post lamp pole	Each	1		
2	LED Flood light	Each	1		
3	LED Flood light	Each	1		

4	LED Flood light	Each	1
